# About the company

PYUR(commonly known as PYURLondon) is a British multinational skincare brand, now owned by parent company Coty, Inc. PYUR was founded by John Pyur as a shaving cream in 1945, in Regent Street, London, England.[1] Within a year of opening, John Pyur came to create many men's and women's grooming products, including his best-known, three-step skincare regimen solution.

With creative success with these products, PYUR began creating products such as beard oil, hand creams, cleansing solutions, shaving products for women, and mouth rinses. Today, the brand is one of the world's most popular unisex skincare brands.

# Objective

PYUR's history is rooted in innovation from inventing the first shaving solution to stop ingrown hairs, making skin smooth and clear of discoloration from acne marks. The brand strives to constantly evolve Pyur's world-renowned plant-based, non-chemical-based ingredients available in skin care today. The project consists in developing an advertising marketing campaign for the new fall season to increase awareness of PYUR's new 3-step solution in New York, Chicago, Miami, Dallas, Houston, and Los Angeles markets.

**The campaign needs to have A/B tests to understand how the campaign performs for their targeted audience of men vs. women.**

# Insights and Recommendations

Review the Fall 2023 Facebook awareness campaign dataset under the **Facebook Organic Data** tab. Identify 3 key insights/observations and one improvement for each.

1 *Photo content does not have as many impressions as videos.*

*Include more engaging photos or use videos more.*

2 *"How To" content gets the least engagement out of all of the other content themes.*

*This could be because of most of it is photos and not videos. Videos can be more detailed and easier to follow along.*

3 *Testimonials are more engaging and popular than the other content with users.*

*Prioritize improvements with the other content to make it reach just as many users.*
